

Job Title: Node.js Developer – Automation**Experience:** 2–3 Years**Location:** Bengaluru**Employment Type:** Full-time**Job Summary**

We are looking for a skilled **Node.js Developer with strong automation experience** to design, develop, and maintain scalable backend applications and automation solutions. The ideal candidate should have hands-on experience with Node.js, API development, test automation, and CI/CD practices.

Key Responsibilities

- Develop and maintain scalable backend applications using **Node.js**.
- Design and develop **RESTful APIs and microservices**.
- Build and maintain automation scripts and frameworks for application testing and processes.
- Develop automated **API, functional, integration, and regression tests**.
- Work with testing tools/frameworks such as **Playwright, Cypress, Selenium, or similar**.
- Integrate automated tests into **CI/CD pipelines**.
- Troubleshoot application and automation issues and identify root causes.
- Collaborate with developers, QA engineers, DevOps, and product teams.
- Participate in code reviews and follow coding and automation best practices.
- Improve test coverage and continuously enhance automation frameworks.

Required Skills

- Strong hands-on experience with **Node.js and JavaScript/TypeScript**.
- Experience in **REST API development and API testing**.
- Strong understanding of **automation testing concepts and frameworks**.
- Experience with **Playwright / Cypress / Selenium** or similar tools.
- Experience with **Jest, Mocha, Chai**, or equivalent testing frameworks.
- Good understanding of **Git and CI/CD pipelines**.

- Experience working with databases such as **MongoDB, MySQL, or PostgreSQL**.
- Understanding of Agile/Scrum development methodologies.
- Strong debugging and problem-solving skills.

Good to Have

- Experience with **Docker and Kubernetes**.
- Exposure to **AWS/Azure/GCP**.
- Experience with performance or load testing.
- Knowledge of microservices architecture.
- Experience building automation frameworks from scratch.

Education

Bachelor's degree in Computer Science, Engineering, or a related field.
